

FITTING SERVICES - \$100.00 PER HOUR

Our trained fit technicians utilize the state-of-the-art technology Vector Pro Launch Monitors, TaylorMade™ Matt I Launch Monitor and the TOMI Putting System.

NEW EQUIPMENT FITTING

Includes: Launch monitor testing to determine the proper shaft flex, shaft weight and club loft in the driver along with lie, loft and shaft options in the irons and wedges. A detailed spec. sheet will be provided to the customer to make their purchase simple.

WEDGE FITTING

Includes: Launch monitor testing to determine carry yardages. Testing to determine proper lie, loft and bounce. A detailed report sheet will be provided to the customer.

PUTTER FITTING

Includes: Launch monitor testing to display the putting stroke of the individual. Putter style, length and weight will also be tested. A detailed report sheet will be provided to the customer.

CURRENT CLUB TESTING

Includes: Launch monitor testing to determine current equipment specs. Lie and loft testing will be done to the irons and wedges. Full written report will be provided on your current equipment.

GOLF BALL TESTING

Includes: Launch monitor testing with different golf balls to determine the best fit for your game. Full written report will be provided on which ball would be the most beneficial to the customer.
